# General Information

**Immunogen:** Recombinant Influenza B (B/Brisbane/60/2008) Hemagglutinin / HA1 Protein (Catalog#40016-V08H1)

**Preparation:** Produced in rabbits immunized with purified, recombinant Influenza B (B/Brisbane/60/2008) Hemagglutinin / HA1 (Catalog#40016-V08H1; ACN29383.1; Met1-Arg362). Influenza B (B/Brisbane/60/2008) Hemagglutinin / HA1 specific IgG was purified by Influenza B (B/Brisbane/60/2008) Hemagglutinin / HA1 affinity chromatography.

**Ig Type:** Rabbit IgG

**Specificity:** Influenza B (B/Brisbane/60/2008) Hemagglutinin / HA1

**Formulation:** 0.2 μm filtered solution in PBS

**Storage:** This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

# Applications

**Applications:** WB, ICC/IF, IF, IP

(Antibody's applications have not been validated with corresponding viruses. Optimal concentrations/dilutions should be determined by the end user.)

# Recommended Concentration

**Western Blot**

WB: 1:1000-1:5000

*Please Note: Optimal concentrations/dilutions should be determined by the end user.*
Anti-Influenza B (B/Brisbane/60/2008) Hemagglutinin rabbit polyclonal antibody at 1:1000 dilution.
Sample: Influenza B (B/Brisbane/60/2008) Hemagglutinin Recombinant Protein
Lane A: 50ng
Lane B: 10ng

Secondary
Goat Anti- Rabbit IgG H&L (Dylight 800) at 1/10000 dilution.

Developed using the Odyssey technique.
Performed under reducing conditions.
