**CD22 Antibody, Rabbit MAb**

**Catalog Number:** 51177-R060

**Immunogen:** Recombinant Mouse CD22 Protein (Catalog#51177-M08H)

**Preparation:** This antibody was obtained from a rabbit immunized with purified, recombinant Mouse CD22 (rM CD22; Catalog#51177-M08H; BAE33829.1; Met1-Arg708).

**Ig Type:** Rabbit IgG

**Clone ID:** 060

**Specificity:** Mouse CD22

**Formulation:** 0.2 μm filtered solution in PBS

**Storage:** This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

**Applications:**

**Flow Cytometry**

**Recommended Concentration**

Flow Cytometry: FCM: 1:25-1:100

*Please Note: Optimal concentrations/dilutions should be determined by the end user.*
Flow cytometric analysis of Mouse CD22 expression on BABL/c splenocytes. Cells were stained with purified anti-Mouse CD22, then a FITC-conjugated second step antibody. The fluorescence histograms were derived from gated events with the forward and side light-scatter characteristics of intact cells.

Flow cytometry was performed on a BD FACSCalibur flow cytometry system. Please refer to www.sinobiological.com/Flow-Cytometry-FACS-Protocols-a-750.html for technical protocols.
