GENERAL INFORMATION

Immunogen: Recombinant Rhesus PD-1/PDCD1 Protein (Catalog#90305-K08H)

Preparation: This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Rhesus PD-1/PDCD1 (Catalog#90305-K08H; NP_001107830.1; Met1-Gln167). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.

Ig Type: Mouse IgG2b

Clone ID: 09

Specificity: Rhesus PD-1/PDCD1

Formulation: 0.2 μm filtered solution in PBS

Storage: This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

APPLICATIONS

Applications: IHC-P

RECOMMENDED CONCENTRATION

IHC-P: IHC-P: 1:100-1:500

Please Note: Optimal concentrations/dilutions should be determined by the end user.
PD-1/PDCD1 Antibody, Mouse MAb

Catalog Number: 90305-MM09

Immunochemical staining of rhesus PDCD1 in cynomolgus lymph node with mouse monoclonal antibody at 1:200 dilution, formalin-fixed paraffin embedded sections.
